I.D. No. 28 of 1991

In re:

General Secretary, First National City Bank Staff Association,

Versus

1. Sansad Marg, New Delhi, Petitioner
The Management, Citibank N.A.

3, Sansad Marg, New Delhi, Respondent

AWARD

This petition u/s 33A of the I.D. Act has been filed by the General Secretary, First National City Bank Staff Association against the Management of Citi Bank. The application is opposed on behalf of the respondent inter alia on the ground that it is not maintainable. Arguments were heard on the question of maintainability of this petition and I have come to the following findings upon this preliminary objection of the respondent.

2. The contention of the workman in their application is that the petitioner—Association is a registered association and the General Secretary thereof is duly authorised to file this petition; that there was a mutually established promotion policy which was being followed by the respondent; that this policy was declared vide letter dated 15-12-70 and was confirmed vide letter dated 16-2-71 and 1-6-71; that accordingly the promotions were to be made on seniority-cum-merit and not merit-cum-seniority; that later on certain promotions were made which were challenged by the workman side and are pending adjudication before this Tribunal as IDs No. 3/79, 55/80 and 104/80; that during the pendency of these IDs the Management has again violated the promotion policy and as such committed a default within the meaning of Section 33 I.D. Act and hence this petition.

3. The Management has contended inter-alia that this petition is not maintainable as none of the workmen who are aggrieved in the above mentioned references have filed this petition and this petition has not even been authorised to be filed by any of those workmen. It may be mentioned here that parties counsel have come forward with the following statement on 1-6-81;

Statement of counsel for parties on SA.

'Parties do not propose to lead any oral evidence. Documents on record may be read as evidence if any. Arguments may be heard.'

4. I have heard arguments at length and have come to the conclusion that certainly this petition is not maintainable as framed. From the perusal of the title of the petition I find that it reads as follows:

'General Secretary, First National City Bank Staff Association, 3, Sansad Marg, New Delhi.

Vs.

The Management, Citibank NA 3, Sansad Marg, New Delhi.'

From para no. 1 of the petition also it appears that the petition has been filed by the General Secretary of the First National Citi Bank Staff Association. There is nothing in the body of the said petition which goes to suggest that this has been filed on an authorisation by either the workmen in ID No. 3/79, or the workman in ID No. 55/80 or No. 104/80. In view thereof it cannot be said that this petition as framed is maintainable. From the perusal of Power of attorney filed by Shri S. K. Maini I find that Shri S. K. Maini has been authorised by Shri K. L. Malhotra, President, First National Citibank Staff Association. This also does not show that the petition has been filed on the authorisation of any of the workmen in IDs No. 3/79 and 55/80 and 104/80. In view thereof also this petition cannot be said to be maintainable. From the perusal of Section 33A of ID Act it is abundantly clear that the petition can be moved by the aggrieved workman for workmen but such is not the case in the instant matter. This also is not evident from the record produced that the matter has been taken up by the Association on the representation of those workmen who were adversely affected in those IDs. From whichever angle I may consider the matter before me I do not find any support for the proposition that the petition as framed is maintainable. If at all the principle of law as enunciated in 1963 (2) I.L.J-10 goes to show that petition by the union is not maintainable in these circumstances and therefore I come to the conclusion that this petition is not maintainable. That being the position I do not think it would be proper for me to go into the merits of the petition. For my discussions above, the petition is dismissed and it is held that the workmen are not entitled to any relief in the petition and it is accordingly awarded that the petition is not maintainable. Parties would bear their own costs.

Further ordered:

That requisite number of copies of this award may be sent to the appropriate Govt. for necessary action at their end.

Versus

The Regional Manager,
Bank of Baroda, Parliament Street,
New Delhi.Respondent

AWARD

The Central Govt. as appropriate Govt. vide its order No. L-12012/14/77-D.II.A dated the 5th December, 1977 referred an Industrial Dispute v/s 10 of the I.D. Act to this Tribunal in the following terms:

'Whether the action of Regional Office of the Bank of Baroda, New Delhi in permanently depriving Shri Vishwanath Singh, Cyclostyling machine operator from the posts attracting a special allowance higher than the special allowance of cyclostyling machine operator, justified? If not, to what relief Shri Vishwanath Singh is entitled?'

2. On receipt of the reference usual notices were sent to the parties. In pursuance of these notices a statement of claim was filed and then a written statement was filed and finally a replication was filed. Upon the pleadings of the parties following issues were framed:

1. Whether the reference is bad as alleged?
2. As in order of reference?
3. Relief.
3. The case was then adjourned for evidence of the parties. After the evidence was recorded the workman side came forward with a statement on 10-7-81 which reads as under:

Statement of Shri R. L. Virmani on SA and the workman on SA.

'The workman was promoted clerk on 26th May 1978 and in view thereof no relief can be available in the reference as it stands and therefore the workman does not press for any relief in this reference in view of the limited nature of order of reference. The court may return a no dispute award in this reference. The workman reserves his right to have recourse to other mode of redress if otherwise available.'

4. Thereafter Shri S. S. Sethi made the following statement:

Statement of Shri S. S. Sethi on SA.

'The reference may be decided in term of order of reference. He cannot reserve any right.'

5. I have heard parties representatives. In view of the categorical statement of Shri R. L. Virmani and the workman, a no dispute award is hereby made in this reference leaving the parties to bear their own costs.

Further ordered:

That requisite number of copies of this award may be sent to the appropriate Govt. for necessary action at their end.

Raghunathan, Advocates for the Management and this dispute having stood over till this day for consideration, this Tribunal made the following.

AWARD

This is an Industrial Dispute between the workmen and the Management of State Bank of India, Madras-1 referred to this Tribunal for adjudication under Section 10(1)(d) of the Industrial Disputes Act, 1947 by the Government of India in Order No. L-12011/79/79-D.II.A, dated 5-12-1980 of the Ministry of Labour, in respect of the following issue :

Whether the action of the State Bank of India, Local Head Office, Madras in increasing the total number of working hours per month from 176 to 208 hours and in reducing the weekly offs from 7-1/2 days to 4 days per month with effect from 26-1-79 in respect of control room operators is justified? If not, to what relief are the workmen concerned entitled?

(2) Facts leading upto this dispute are as follows : The Management is State Bank of India, Madras Local Head Office functioning at No. 43, Moore Street, Madras-1. In keeping with the expansion of its activities the Bank constructed a multi-storeyed building at No. 21, Rajaji Salai, Madras-1 and which is known as "Circle Top House". The Bank moved into the new premises sometime in November, 1977. The new premises is centrally air conditioned and hence entries to the offices were only through specified entrances. In view of the nature of the building the Management has to maintain sophisticated fire extinguishing equipment to meet any possible fire hazard. In order to ensure that the fire detection fire prevention systems are attended to round the clock, a control room was set up. It is uncontroversial that control room came into being from the beginning of 1978. The staff employed in the control room are required to keep a constant vigil or watch on the equipment and they have to act as per the indications in the equipment. The Management of the Bank sanctioned a staff strength of 4 Control Room Officers/Assistant Security Officers in the Junior Management cadre, 4 control room operators and 4 fire-men who come under the award staff category. Initially when the control room was started 3 operators and 2 firemen were appointed. The present reference made by the Government of India, Ministry of Labour relates to 4 operators employed by the Management as control room operators. These control room operators are in charge of keeping control over sophisticated electronic instruments, fittings, etc. and the object of the control room is to take note of any untoward happenings as reflected in the equipment and to take steps to avert, control and put down the untoward emergencies. Thus operators will have to send periodical reports about the electrical gadgets Wet riser system, Electronic Fire Alarm System etc. and will have to maintain the details about the power shut downs and other things. These 4 operators were serving in the Indian Army/Air Force as Junior Commissioned Officers and they were recruited through the Special Employment Exchange. Exs. W-5, W-6 and W-7 were the appointment orders given by the Management to three of the four operators, one of whom has also been examined as W.W.1. He was appointed in July, 1978 whereas the other three were appointed in January, 1978 as evident from Exs. W-5 and W-6. The services of these operators were also duly confirmed as seen from Exs. W-8, W-9 and W-10. W.W.1 was confirmed in February, 1979 whereas the other two were confirmed on 22-6-1978 as can be gathered from Exs. W-8 and W-9. As mentioned earlier, in January, 1978, there were only three regular operators and these three regular operators were duly apprised of their duties listed under Ex. M3. The three operators have received copy of Ex. M-3 on 11-1-1978 and 12-1-1978 and they appeared to have been apprised of their duties even in the first week of January, 1978. W.W.1 has admitted in cross-examination that the three other control room operators have received list of duties of control room operators and had received in January, 1978. W.W.1 who has been appointed as Operator only in July, 1978 would say that he does not remember to receive also the copy of duties of control room operators at the time of his appointment similar to Ex. M-3. He would say that as a control room operator, he is not required to perform duty No. 9 and 12(d) as mentioned in Ex. M-3. But he admits that the other duties found in Ex. M-3 were performed by him as an operator. Moreover, when W.W.1 is appointed as an operator six months later it is quite probable that he would have been furnished with the list of duties mentioned in Ex. M-3. In the circumstances, by and large the duties of control room operators can be spelt out from Ex. M-3.

(3) From clause (2) of Ex. M-3 it can be noted that the control room operators were working in three shifts. The 1st shift from 06.00 hours to 14.00 hours, 2nd shift from 14.00 hours to 22.00 hours and the 3rd shift from 22.00 hours to 06.00 hours on the following day. Although there were four control room operators, the daily requirements were only three operators while the 4th operator was staying away from duty. Similarly they were changing the shifts once in two days and the shift was changed from 1st shift to 2nd shift and 2nd shift to 3rd shift. In the nature of the system that was in vogue the operator was working in the 3rd shift for two days could not change to the 1st shift without a break for one day and therefore after working for a 3rd shift for two days the operator used to avail a day off. Thus the control room was operated with the aid of three

operators for three shifts a day and the 4th man was to operate as a reliever and as a leave. As I had mentioned earlier this was the scheme of working of the control room during the first year, namely 1978. During the 2nd year of service contingencies for leave reserve for these operators did arise. According to the Management, during the 2nd year of service of these operators, the roster for shift system was re-laid in such a way that after providing for three operators for three shifts the 4th operator would act as a reliever during weekly holiday of the other control room operators and as a leave reserve. The Security Officer of the Management-Bank has been examined as M.W.1. As a Security Officer, his duty is to prepare the duty roster of the control room. W.W.1 has also stated even in chief examination that Security Officer alone prepares the duty roster. He has stated that Ex. W-11 is a statement prepared by him indicating the duty allotted to the control room operators as extracted from duty roster register maintained by the Management. This statement Ex. W-11 comprises of two portions. The first part indicating the duty roster pattern of control room operators obtained in the Management prior to 26th January, 1979 while the 2nd portion mentioned the duty roster pattern of control room operators after 26th January, 1979. W.W.1 has admitted even in chief examination that the data mentioned in Ex. W-11 related to the duties of the control room operators prior to 26-1-1979 is correct and he has stated that it is in accordance with the duty roster register. But according to him the basis on which the duty roster register prior to 26-1-1979 in Ex. W-11 was based on the guidelines prepared by him in Ex. M-4 which is an 'Aide Memoire on Shift system'. In cross-examination, it has been clarified from him that the details furnished in Ex. M-4 are correct. Moreover, in his cross-examination, it was elicited that the actual working of the four operators during the first year upto 26-1-1979 is indicated at the lower part of Ex. M-4. The case of the operators is that after 26-1-1979 the working hours of the operators had been increased from 176 hours per month with 8 days off to 208 hours and only 4 days off and that the Bank has not given any notice under Section 9-A of the Industrial Disputes Act, 1947 and therefore the change effected by the Management from 26-1-1979 is wholly illegal. But according to M.W.1 no such notice under Section 9-A of the Industrial Disputes Act, 1947 was required and therefore the action of the Management is perfectly justified. On this controversy between the workmen and the Management the present reference has been made by the Government of India, Ministry of Labour to this Tribunal for adjudication.

(4) As seen from the appointment orders Exs. W-5, W-6 and W-7 issued to the operators, it can be noted that they will be governed by Desai Award and they are placed in the clerical cadre. It is not gain-said that paragraph 10.46 of the Desai Award has fixed actual hours of work for workmen other than sub-staff as 6-1/2 hours a day and 4 hours for Saturday and it has also provided for a lunch recess of half an hour to one hour. The same working hours for these operators had also been fixed in the bi-partite settlement dated 31-3-1967, printed copy of which is marked as Ex. M-5. Accordingly, these operators were made to work 176 hours per month with 2 weekly offs ever since their entry into service upto 26-1-1979. The case of the Management is that the bi-partite settlement reached under Section 18(1) of the Industrial Disputes Act—vide Ex. M-5 was made long before the control room operator joined the services and therefore they cannot claim the benefits of the working hours as laid down in Ex. M-5. But it must be noted that even the appointment orders Exs. W-5, W-6 and W-7 disclose that their service conditions will be governed by Desai Award. Therefore there is prima facie justification for the submission of the workmen that in accordance with paragraph 10.46 of the Desai Award the actual working hours for workmen other than sub-staff would only be 6-1/2 hours a day and 4 hours for Saturday and therefore any change in that condition which was obtained upto 26-1-1979 would be in direct violation of the terms of the Desai Award and as such since the Bank has not given even any notice Section 9-A of the Industrial Disputes Act, 1947, the change effected by them must be held to be illegal. Learned counsel for the Management Thiru Gopalan points out that although the Union may seek to rely on paragraph 10.46 of the Desai Award in support of their position they cannot ignore paragraph 10.46 (5) which runs as follows :

"Part time employees as well as members of the watch and ward staff, bank employees engaged in domestic service, gardeners, sweepers, godown-keepers, engaged solely for the work other than those

required to remain in attendance at the bank during office hours, are excluded from the scope of the aforesaid directions. The provisions contained in clause 9 below equally not to apply to them."

Thus it can be seen that the category of employees sought to be covered under clause (5) are those employees engaged solely for work other than those required to remain in attendance at the bank during office hours. Though the category of control room operators may not find a place in paragraph (5), yet by virtue of their being required not to remain in attendance of the Bank during office hours, it can be said that they must be deemed to be excluded from the scope of paragraph 10.46 (1 to 4) of the Award. Although in the appointment orders Exs. W-5, W-6 and W-7, it is stated that conditions of service will be governed by Desai Award, yet there is no stipulated working hours per week or per month for control room operators. Therefore when there is no stipulation about monthly working hours or weekly working hours there cannot be any question of increasing of working hours with effect from 26-1-1979. A point was also sought to be made by the Union, in that the duty roster pattern in vogue prior to 26-1-1979 should also be upheld on the ground of customary privilege or usage. But out of the four control room operators, three were appointed in January, 1978 and 4th one W.W.1 joined in July, 1978. The duty roster pattern was readjusted with effect from 26-1-1979. Therefore when the control room itself was founded less than a year ago and three of the operators were appointed in January, 1978 and the 4th operator W.W.1 joined the Management only in July, 1978 and while the operation of the control room was in its maiden or formative or nascent stage, by no stretch of imagination can it be said that by about January, 1979 the operators can advance a right based on customary privilege or usage with regard to their working hours or weekly offs.

(5) W.W.1 has admitted in cross-examination that both before and after 26-1-1979, his shift hours duty is only 8 hours. He has also added he had been availing off strictly in accordance with Duty Roster Register. He also says that duty roster register is prepared once a month. M.W.1 is the Officer who prepares the duty roster register. From Ex. M-3, it can be further noted that the preparation of the duty roster was left to the discretion of the Security Officer, and the control room operators were expected to work strictly in accordance with duty roster. Thus it is apparent that prior to 26-1-1979, the Security Officer M.W.1 prepared the duty roster in such a manner and each control room operator could avail of one weekly off and another off after night shift. But from 26-1-1979, the work was assigned by the Security Officer equitably among all the 4 control room operators and so since 26-1-1979 not only was there equitable distribution of available work among all the four control room operators but all the four control room operators became eligible for liberal leave benefits. In the circumstances, the control room operators are bound to work in accordance with the duty roster prepared by the Security Officer M.W.1. But it cannot be held that while preparing the duty roster register the Security Officer changes the service conditions as such of the control room operators.

(6) At this juncture, I may also examine if as a result of the duty roster prepared by the Security Officer M.W.1 from 26-1-1979 any hardship had been caused to any of these control room operators. As seen from the working of the shifts in Ex. M-4 the available shifts in a month would be 90 shifts. The number of control room operators were four. If each control room operator was given one week off then three control room operators will operate 78 shifts in a month and the 4th operator will have only 12 shifts in a month. For the remaining days in a month the 4th operator may not have full employment. To obviate this contingency the Security Officer has in an equitable manner distributed the workload among the four control room operators equally by dividing the 90 available shifts by four and the net result would be that each control room operator will require to work 22½ shifts. Instead of that, two control room operators were required to work for 23 shifts in a month and the other two operators were required to work 22 shifts in a month. This is also explained by the admission of W.W.1 that prior to 26-1-1979 the working hours and working days used to vary from operator to operator. It will be pertinent to set out some more details with regard to these control room operators. Control Room is a place where master panel for various equipment is kept. The control room operator has to keep watch over this and if anything of abnormal is noticed he should take further steps. The control room operator did not

and was not required to loom after the maintenance or repairs of the equipments of the control room. Control Room, Watch and Ward and the Fire Services come under the control of Security Department under the Management. Control Room Operator is an award staff of the Bank. Some of the award staff also work in shifts. All the award staff who worked in shifts have 8 hours duty. All the award staff members of the Bank are given only one weekly holiday. No doubt, as far as emoluments are concerned, control room operators are placed on clerical cadre. But W.W.1 has admitted that so far no control room operator has been transferred out as a clerk. Conversely never has there been any instance where a clerk has been posted as a control room operator. The control room operator has to make entries in Log Book, Handing over and Taking over Register, Key Deposit Register, Attendance Register and Despatch Register daily. Control Room is a unique feature found only in the Circle Top House and there is no other parallel in any other Bank in this area or region. Therefore regard being had to the peculiar nature of work in the control room and in the absence of indication of specific hours of work in the order of appointment and the admitted facts that the control room work has to be carried on in three shifts with four operators and the undisputed fact that the control room operators have to faithfully carry out the duty roster as prepared by the Security Officer the aforesaid officer was perfectly justified in distributing the work among the four operators, so that each operator would get the weekly off and each shift does not exceed 8 hours of duty, it cannot be concluded that such duty roster prepared by Security Officer as from 26-1-1979 is either improper, illegal or unjust or unfair or inequitable.

(7) The Management relies on the decision of the Supreme Court reported in 1973—I—L.L.J. Page 18 (The Oil and Natural Gas Commission vs. their workmen). Briefly, the facts are as follows :

"When the workshop of the Oil and Natural Gas Commission (ONGC) at Baroda was under construction the office administrative staff used to work in a different place and at that time their working hours were 10 a.m. to 5 p.m. with an interval of 1½ hour. That is the total working hours were six and half hour a day. These working hours lasted from December, 1964 to June, 1965. When administrative staff was shifted to the factory, the working hours of the administrative staff was fixed from 8 a.m. to 5.00 p.m. with an interval of one hour. The workmen claimed that the working hours have been increased without 9(a) Notice."

Eventually the Supreme Court rejected the contention that notice under Section 9-A of the Industrial Disputes Act, 1947 was essential and pointed out that the Management must have full power and discretion in fixing the working hours of the administrative staff within the limit prescribed by the statute. On the facts of the present case, I am inclined to hold that the dictum of the Supreme Court *mutatis mutandis* would apply and the Management has every right to fix the working hours within the limits prescribed by the statute.

(8) In as much as I am not inclined to accept the case of the Union that there is change in service conditions of these operators it is unnecessary for me to refer to the several citations placed before me for the position that in the absence of any notice under Section 9-A of the Industrial Disputes Act, 1947 the action of the Management wholly illegal. Finally, the action of the Management can also be sustained because it seeks to distribute the work equally among the four operators in charge of the control room of the Management. If as the operators would have it to restore the status quo as indicated in paragraph (10) of the claim statement it would amount to this, namely, perpetration of the inequalities between these four operators. Suffice for me to refer to only one factor. If each control room operator is given only weekly off then the three control room operators will operate 78 shifts in a month and the 4th operator will have only 12 shifts in a month and for the remaining days in the month the 4th operator may not have full employment. It is in this context the Security Officer M.W.1 has stated that the 4th operator had been working as a relief for the other three operators and so his services are not utilised in full. He has further stated that after 26-1-1979 all the four operators are given equal shifts thus rationalising the entire work. Even after 26-1-1979, each operator gets a weekly off on any one of the 7 days. If the working arrangement in vogue prior to 26-1-1979 were to be guidelines for ever and ever as Union would have it, it would tantamount to giving a real

of authority for the unequal distribution of work among the four control room operators employed by the Management. Certainly, it would be most undesirable nay even un-business like on the part of any Management to succumb to such a course. Therefore, looked at from any angle, the action of the Management cannot be assailed.

(9) At the time of arguments, learned counsel for the operators Thiru K. Chandru also raised the question as to how far the action of the Management can be justified calling upon the employee to work for 8 hours without a break. It must be pointed out that in the claim statement no such specific plea has been raised to give the Management an opportunity to explain their stand. Support for the submission made by the learned counsel was by a reference to the provisions of Tamil Nadu Shops and Establishments Act, wherein it is provided that no person employed shall be required to work continuously for more than four hours without a break of one hour. Learned counsel for the Management Thiru Gopalan points out that State Bank is exempted from certain provisions of Tamil Nadu Shops and Establishments Act including Section 14(2) subject to certain conditions. Therefore, there is no question of violation of provisions of Tamil Nadu Shops and Establishments Act. Moreover this plea has not been taken up earlier or even before the Conciliation Officer. Further more, it is not as though these operators from 1978 onwards had never taken any lunch or meals during a shift period of 8 hours. Finally at page (4) paragraph 8(d) in the claim statement it is averred that the action of the Management is discriminatory and violative of Article 14 of the Constitution. Although the control room operators are placed on par with clerical staff for emoluments it cannot be said that with regard to their working hours there is a discrimination between the control room operators as a group and the other class of clerical staff. On the other hand, I had elsewhere pointed out how in the context of the operation of the control room which is unique the work of operators had to be regulated in such a way as to achieve the most efficient working of the control room operators. Therefore the action of the Management can neither be termed discriminatory or violative of any of the articles enshrined in the constitution. In the circumstances, I must hold that the action of the Management in regulating the work of control room operators with effect from 26-1-1979 is perfectly justified and consequently does not warrant the grant of any relief to the control room operators.

(10) In the result, an Award is passed holding that the action of the Management in regulating the work of Control Room Operators with effect from 26-1-1979 is perfectly justified and consequently no relief can be granted to the Control Room Operators. In the peculiar circumstances, I direct the parties to bear their respective costs.

AWARD

The Central Govt. as appropriate Government vide its order No. L-12012/30/80-D.II(A) dated the 2nd April, 1981 referred an Industrial Dispute to this Tribunal in the following terms:

"Whether the action of the management of State Bank of India, Varanasi (Region-II) in terminating the services of Shri Bhoop Narain Dixit, Driver Sardar Narain Branch (Gorakhpur) with effect from 7-4-76 is justified? If not, to what relief is the workers concerned entitled?"

2. On receipt of the reference usual notices were issued to the parties. In furtherance of the said notices a statement of claim was filed by the workman side. Thereafter case was adjourned for filing of written statement of the Management but before any written statement could be filed a settlement has been arrived at between the parties which has been recorded vide my order dated 29-7-81. The settlement is incorporated in the statements of parties representatives which reads as under:

"Statement of Shri S. N. Shukla for workman on S.A. and Shri K. M. Tripathi for bank on S.A." An award reappointing this workman on regular permanent basis subject to usual 6 month's probation on completion may be passed in favour of workman and against bank. The appointment would be treated as fresh appointment w.e.f. 1-9-81. Workman forgoes all other claims arising from previous services."

3. In view of the statements recorded, above, it is awarded that the workman is appointed on regular permanent basis subject to usual six month's probation completion w.e.f. 1st September, 1981 in his earlier capacity in the usual grade. The workman would not be entitled to any other relief on the basis of previous service. Parties would bear their own costs.

Further ordered:

That requisite number of copies of this award may be sent to the appropriate Government for necessary action at their end.

SHORT RECITAL

The Mineral Workers Union, Manavalakurichi and Shri Jacob Rajan, Shipping Contractor for transporting shipping and stevedoring under M/s Indian Rare Earths Ltd. Manavalakurichi referred an industrial dispute for arbitration to me vide their agreement dated 17-11-1978, under Section 10(A) of the Industrial Disputes Act. Since the arbitration agreement was not in the proper form, the Government returned the agreement which was revised by the parties and resubmitted vide their letter dated 7-2-1979. This was notified in the Official Gazette vide notification No. L-29013/3/79-D.III.B dated 12th October 1979. The specific matters in dispute were—

"(a) What should be the rates of wages payable to the workers for:

- (i) Loading Minerals in lorries at Manavalakurichi.
- (ii) Unloading Minerals at Colachel godowns.
- (iii) Unloading minerals at Colachel beach.

(b) What should be the time limit within which arrears of wages if any should be paid by the contractor."

1. The dispute had arisen since there was no proper agreement regarding the rates of wages payable to these workmen. When the ship for exporting the minerals reached Colachel port, the workmen struck work and the matter could not be resolved. However, an interim agreement was reached by which the contractor agreed to pay wages at the rate of Rs. 1.60 per Metric Ton for loading at Manavalakurichi and unloading at Colachel godown/Beach all put together. The wages paid according to these rates were to be adjusted against the rates that would be decided by the arbitrator on completion of proceedings before him.

2. Hearings were conducted on several dates and a good deal of evidence brought in by the parties. The union produced a copy of the tender for shipping contract for 1978-79 issued by M/s Indian Rare Earths Ltd. (ext-P1). The schedule of rates submitted by Shri Jacob Rajan and accepted by M/s Indian Rare Earths Ltd. have also been produced (ext. Q-11) by the contractor. It is seen from this that the contractor was for a rate of Rs. 29.60 per metric ton while the contractor had worked this out by spilling it into different operations. The contractor had allotted Rs. 4.20 for transporting bagged cargo from ware-

houses in Manavalakurichi to Colachel by lorry and for stacking in the godowns provided by the Company. He had also allotted Rs. 2.16 for removal of cargo from godowns at Colachel port area by headlead workers to the Foreshore and stacking there, bagging the spillage from godowns etc. and transporting back to the plant including processing of shipping documents through port and customs.

3. It has been the contention of the unions that these two operations are not necessary in all cases and a good part of the cargo is lifted from Manavalakurichi and carried straight to the Beach (Colachel Port area) and hence the amount of Rs. 2.16 per metric ton shown by the contractor is a clear profit on such cargo. Against this, the contractor argued that he has to incur additional expenditure by laying roads on the sandy beach and on other incidental expenditure and that the amount of Rs. 2.16 is spent on such work where consignments are taken directly to the beach from the godowns at Manavalakurichi. This will be examined at length later.

4. The unions have argued that the wages paid by the contractor are far below those paid by the principal employer namely M/s Indian Rare Earths Ltd. to their permanent workers. Ext. P-3 is a pay cover of one such worker for the month of January 1980. The total earnings according to this is Rs. 647.97 for a month. If the daily rate is calculated by dividing it by 26, the daily rate may amount to nearly Rs. 25. However this may have little relevance, since there is nothing in evidence to show that the contract labour and the workmen of company are employed on identical or similar jobs. The Unions representatives produced the Price Index Numbers for Nagercoil for the month of October 1979 along with those of Cuddalore and Tiruchirappally. The Index No. 415 for Nagercoil was 32 points above that of Tiruchirappally and 45 points above that of Cuddalore. According to them, this showed the cost of living at Nagercoil was higher than that in the other two towns and that Manavalakurichi which was near Nagercoil (18 KM from Nagercoil) also had a higher cost of living. This also may not be strictly relevant since Manavalakurichi is not Nagercoil though nearby.

5. The Unions representatives also produced a letter dated 5-7-1978 from the South India Corporation (P) Ltd. (Ext. P-6) where they had offered a rate of Rs. 2.50 per metric ton for loading and stacking of minerals for transportation by lorry at Manavalakurichi. According to the union the rate paid by the contractor namely Rs. 1.60 was far below the rates offered by competitors.

6. They also produced the Minimum Wages notification (Ext. P-5) of the Government of Tamil Nadu fixing the rate of loading and unloading charges in markets, shandies (fairs and market places) and other like places in the State of Tamil Nadu. As per this notification the rate in Zone 'C' was Re. 1 per metric ton either for loading or unloading operations. This notification is not legally applicable to the work done by the present contractor, as the minimum wages fixed are for public places like markets and Shandies. It is also admitted that no minimum wages have been fixed under the Minimum Wages Act for the work carried on through the contractor since it is not a scheduled employment. The union also produced a letter dated 9-4-1978 from Sri S. Sivathanu another transporting contractor (Ext. P-11) where he had also offered a rate of Rs. 2.50 per metric ton as loading and stacking charges for transporting Zircon, Rutile and Ilmenite from Manavalakurichi. The rates shown in these exhibits are informative and may be useful for purposes of comparison.

7. The contractor Sri Jacob Rajan also produced elaborate evidences, apart from his own depositions. According to him the rate of Rs. 29.16 per Metric Ton accepted by him was the consolidated rate for all operations. For transporting loading and unloading, his rate was Rs. 4.20 ps. per metric ton out of the above. The rate for lorry hire was Rs. 2.50 per metric ton. Apart from this, the rate for loading and unloading was Rs. 1.60 per Metric Ton which left a margin of 0.10 ps. only per metric ton for supervisory charges out of the amount of Rs. 4.20 per metric ton. Ext. P-1 was the lorry receipts from Velmurugan Lorry Service showing the rate of Rs. 2.50 per metric ton as lorry charges. He also produced an agreement between him and the union (Ext. Q-2) according to which the loading and unloading charges were fixed as Rs. 1.45 per metric ton for the year 1977-78.

8. While the tender for 1978-79 was called for on 28-7-1978 he had expected an increase of 10 to 15 paise per M.T. over

the previous rate, as per his enquiry from the workers. According to him the union had not made any demand regarding the rate for 1978-79. The contractor received the work order on 7-11-1978 and the Steamer to carry the cargo arrived in Colachel port on 10-11-1978. At this time, the workmen demanded the rate of Rs. 4.50 per metric ton and refused to work unless this was conceded. Since the steamer was in port, they could bring considerable pressure on the contractor. It was in this context that the arbitration agreement was reached. According to this the contractor made an interim payment at the rate of Rs. 1.60 per Metric Ton to be adjusted against the rate that would be awarded by the arbitrator. He produced six receipts showing these payments (Ext. Q-3 to Q-8). He also produced Ext. Q-9 where the lorry owners namely Velumuran Lorry Service had offered to do the loading and unloading for 1978-79 at the rate of Rs. 1.50 per Metric Ton. According to him, he had actually paid Rs. 1.60 per Metric Ton which was higher than what he would have had to pay if Velumuran Lorry Services were given the work. According to his calculations the rate of Rs. 1.60 per Metric Ton enabled the workmen to earn an average of Rs. 20 per day as wages. In Kanyakumari District where the minimum wages for an unskilled labourer were Rs. 8 per day per Metric Ton, his workmen had received wages at more than double this rate. He also produced a Bill of Lading (Ext. Q-10) which showed 47,550 M. Tons only was actually billed whereas the loading from the mines was 49,201 Metric Tons making a difference of 1651 Metric Tons for which the contractor did not receive any remuneration but had to pay wages to the labour.

9. Eventhough the parties had produced a good deal of evidence there were certain areas where they could not produce adequate and dependable information. One such was regarding the quantity of minerals transported, the rates tendered by different contractors, etc. Hence a few additional witnesses who were officers of the Principal Employers, namely, M/s. Indian Rare Earths Ltd. were examined together with records maintained by the Company.

10. It was found from the evidence of Sri S. V. Ramakrishnan, Personnel and Administrative Officer that the rates of wages per M.T. fixed by the company for contract loading and unloading workers were as follows :—

1973 & 1974	1975	1976	1977	1978 to March 80.	April 1980 onwards.
Rs. Ps. 1.25	Rs. Ps. 1.50	Rs. Ps. 1.60	Rs. Ps. 1.60	Rs. Ps. 2.00	Rs. Ps. 4.00

It was also found from the evidence of Sri P. T. Kutty, Administrative Officer that substantial quantities of minerals were transported directly from the Plant at Manavalakurichi straight to the Beach at Colachel. The figures for the year 1977-78 and 1978-79 are reproduced below :

	1977-78	1978-79
Quantity transported to Beach	37,800 MT	35,488 MT
Quantity transported to Godown	24,676 MT	14,447 MT

This would tend to prove that there could be substantial margin of profit for the contractor in that the quantity transported first to the godowns and from there to the beach thereafter.

11. While the unions made elaborate arguments comparing the wages of direct workmen of the plant at Manavalakurichi with those of the contract labour, there is little force in demanding the same wages for those workmen since the work of the plant workers are not identical with those of the contract labour. However, the rate paid by the company for contract loading and unloading is certainly relevant. This rate had risen gradually from Rs. 1.25 per MT in 1973 to Rs. 2 per MT in 1978 during the course of time. This rate had been doubled to Rs. 4 per MT with effect from April 1980 as also pointed out by the union. The latter rate may cast its shadows on the rate the contractor may have to pay in the future but this has no relations to the rates for the period of the contract (1978-79) over which there has been a dispute and the reference made to the Arbitrator.

12. The unions had argued that the arbitrator should fix the rate on the basis of minimum wages and not on consideration of the capacity of the employer to pay. They also wanted the element of social security (allowance for sickness, educational needs, etc.) to be provided for. The Tender form issued by the Principal Employer provided for the

contractor's taking those into consideration and also that wage rates should be negotiated with the union. This contractor had so negotiated and hence he alone was to be responsible if he had to undergo the risk, if higher wage rates were fixed with retrospective effect.

13. They also argued that in any case the contractor had a large margin of profit. This was proved by the fact that he had reduced the originally quoted rate after negotiations with the employers.

14. On the other hand the contractor argued that there was no mention in the tender form about the presence of the union or about the requirement for negotiating with them. According to him the rates he quoted were arrived at on the basis of expected escalation from the previous year's rate and also in comparison with the prevailing rates in the locality. He countered the argument of the unions that there were considerable savings when the minerals were transported directly to the Beach. According to him the amount of Rs. 2.16 per MT shown as charges (for unloading in Colachel godown and again loading to the foreshore) was not saved as there were additional items of expenditure like laying roads on the beach, bagging the spillage, etc. In the case of the mineral transported from Manavalakurichi straight to the beach at Colachel, though he was not able to quantify the cost of such work. The rate quoted by him was also inclusive of other items like the cost of keeping watchmen, electrification of the stacking area for lighting purpose, restacking if the stacks got wet by waves, etc., though these were not mentioned in the tender form. The unions rejoined that there was no evidence to show that the contractor had taken the permission of the port authorities at Colachel for laying roads on the beach, as port regulations required. According to them this proved that he did not lay any roads nor did he incur any expenditure on this. They also argued that other items of expenditure mentioned by the contractor could not be set off against the wages of these workmen only as there were others engaged in bagging, transporting, headload work etc. involving in loading from the godown to foreshore and those employed on valloins, etc. These workmen should also share the element of these items of common expenditure.

15. Having heard the arguments of both sides I am persuaded to hold that there is some saving (though not the whole amount of Rs. 2.16 per MT) when the mineral is transported directly from Manavalakurichi to beach. It also appears that there is an element of risk and greater hazard when the unloading is done at the beach and it is comparatively easier to unload into the godowns. These facts have to be taken into consideration while fixing different rates for the work of loading minerals at Manavalakurichi, unloading minerals at Colachel godown and unloading minerals at Colachel beach as per the arbitration agreement. In consideration of the evidence and the arguments of either party I award the following rates for the shipping season 1978-79.

- (i) Loading minerals at Lorries at Manavalakurichi. 90 paise MT
- (ii) Unloading minerals at Colachel Godowns. 80 paise MT
- (iii) Unloading minerals at Colachel Beach. Rs. 1.10 MT

16. Since the work is already over and the accounts are finalised there is no reason to give an extended time limit for payment of arrears. Hence I award that the arrears due on the above rates may be paid within one month from the date of publication of this award.

Dated this the 29th May, 1981.

AWARD

The Central Government as appropriate Government vide its order No. L-29011/19/80-D.III(B), dated the 31st May, 1981 referred an Industrial Dispute in the following terms u/s 10 of the I.D. Act to this Tribunal :

'Whether the following demands of the workers employed in the Lime Stone Mine of M/s. Suket Sahakari Shramik Theka Pashan Udyog Samiti Limited, P.O. Suket, District Kota are justified? If so to what relief the workmen are entitled?

1. Upward revision of rate of daily wage of unskilled workers.
2. Enhancement of piece rate for Stone cutters.
3. Rationalisation and introduction of suitable pay scale for the clerical and other staff employed in the mine.
4. Provision of medical facilities.
5. Grant of two extra paid festival holidays.
6. Grant of 20 days casual leave in addition to leave admissible under the Mines Act.'

2. On receipt of the reference it was ordered to be registered. In pursuance of the notice workmen side had appeared but the Management side had absented. The notices were ordered to be issued to the Management for five times but none appeared on behalf of the Management and it was thereafter that I was constrained to order ex-parte against the Management and ex-parte evidence was ordered to be recorded on the pleadings of the petitioners/workmen.

3. I have gone through the evidence produced by the workmen side and have gone through the pleadings and after giving my considered thought to the matter before me I have come to the following findings upon this reference.

4. From the perusal of statement of claim filed by the workmen I find that it is contended therein that Rashtriya Mazdoor Sangh, District Kota is a registered trade union of Lime Stone workers and the respondent was owner of a Lime Stone; that the respondent had not been paying proper wages as other Lime Stone owners are paying therefore the matter was taken up and the present reference has been made by the appropriate Government.

5. In support of its evidence the workmen side has produced only the affidavit of one Shri Ram Gopal Gupta s/o Shri Jamna Lal who has described himself in para no. 1 of the affidavit to be the Office Secretary and elected Treasurer of Rashtriya Mazdoor Sangh. The only other thing stated by this witness in his affidavit is that the respondent have not raised wages since October, 1979 of the workers in their Lime Stone Mines while most of the other Lime Stone Mine owners have increased the wages w.e.f. 1-10-79 and that similar work is carried out in the Lime Stone Mines of the respondent and hence it is prayed that the revised wages be paid w.e.f. 1-10-79.

6. From the perusal of above statement of claim and the evidence it would be found that it does not even remotely touch the points of reference which have been referred as Industrial Dispute by the appropriate Government to this Tribunal and in view thereof it cannot be said that the workmen side have led appropriate evidence to entitle it to any relief what-so-ever.

7. Now that the Management side had absented, the burden of proving the entire claim had fallen upon the workmen side. Even otherwise from the order of reference it would be found that the workmen had to establish the justification

of their demands incorporated in the said order of reference. The workmen side has led practically no evidence worth the name to discharge the said burden. They have not cared to examine even one such employer who was paying higher wages than this management/respondent, even though it is alleged that most of the other employers were paying higher wages. The workmen side has further failed to produce any evidence to suggest even remotely that the present wages were insufficient or required revision. Likewise they have not brought any evidence on record to make out a case for upward revision of rates of daily wages or enhancement of piece rates. Similarly in the absence of any evidence on the point it cannot be said that any rationalisation or introduction of any suitable pay scale for clerical or other staff is called for or can be done. Likewise there is absolutely no evidence on the question of provision of medical facilities or grant of two extra paid festival holidays or 20 days casual leave in addition to the leave admissible to these workmen under the Mines Act. From whichever angle I may consider the matter before me I have come to the conclusion that the workman have miserably failed to establish their claim in this reference.

8. It may incidentally be mentioned here that the appropriate Government had vide its order No. S-32019(VI) 79-WC(MW) dated 12th September, 1980 revised the minimum rates of wages in respect of categories of employees employed in Stone Mines which includes Lime Stone Mines. From the perusal of the said order it would be found that the appropriate Government has fixed minimum rates of wages for unskilled, semi-skilled and skilled and clerical staff working in these mines and explanation to this notification shows that this minimum rate of wages is also inclusive of basic rates, cost of leaving allowance, cash value of concessional supply and wages for the weekly rest and are also applicable to employees employed by contractors, which term would include the lease holder of the present type also. This order is effective from 1-10-1980 and therefore it is too premature thereafter to revise the rate of wages. It may also be mentioned here that for the same reasons no rationalisation or introduction of suitable pay scale at this stage is called for. Similarly there are no grounds for further revision of medical facilities or grant of two extra paid festival holidays or 20 days casual leave in addition to leave admissible to these people under the Mines Act. The very fact that the appropriate Government has revised minimum rates of wages in respect of employees employed in Stone Mines which term would include lime stone mines, would go to suggest that this industry is still in its very infancy and would not admit of any further revision or upward revision of wages or any rationalisation or introduction of regular pay scale or provision of medical facilities or grant of two extra paid festival holidays or 20 days casual leave. For this reason also the workmen side is not entitled to any relief in this reference what-so-ever.

9. The matter may be considered from yet another angle. The workmen side have failed to produce any figures showing their output of production or to bring out the incidence of financial burden of expenditure which would be involved if any practice of further medical facility or grant of two additional festival holidays or additional 20 days casual leave is introduced in this industry. The time is still not ripe for granting of any of these reliefs. Further more now that minimum wages have been revised by the appropriate Government in respect of workers working in Stone Mines Industries including the Lime Stone Mines it is natural that further revision would be made in accordance with the provisions of Minimum Wages Act as and when such a necessity would arise.

10. In view of my discussions above, I hold that none of the demands of the workmen in this reference is justified and it is awarded that the workmen are not entitled to any relief what-so-ever in this reference. However parties are left to bear their own costs.

Further Ordered :

That requisite number of copies of this award may be sent to the appropriate Government for necessary action at their end.

(2) Facts leading upto this dispute are as follows: The Management is Karuna Mines and Minerals, No. 12, Bretts Road, Salem-63001, Tamil Nadu. The reference made by the Government of India, Ministry of Labour relates to 31 workmen. The Management is a partnership concern and had been licensed by the Government of Tamil Nadu to carry on mining operations in specified places. Ex. M-3 is the Government Order sanctioning the grant to Management of a mining lease for lime stone, etc. for a period of 20 years—vide G.O. Ms. No. 1109, dated 6-8-1974, Industries Department. Ex. M-4 is the photostate copy of the Mining Lease Deed. Of course M.W. 3 (the Manager) had the original of Ex. M-4 while he was examined before this Tribunal. Ex. M-4 also is a part of the mining lease deed. Before I proceed further, I may advert to the plea taken up by the Management that the issue referred to this Tribunal for adjudication is vague and misleading. This stand is based on two grounds. In the first place, the Management had no mining operation in Mangarangampalayam as stated in the reference made by the Government of India. Secondly, while the workmen mentioned in the reference had worked under the Management till 8-9-1979 the date of alleged termination as mentioned in the reference, namely 16-5-1979 is misleading. While so, the claim statement filed on behalf of these 31 workmen asserts the fact that they were working at Mangarangampalayam mines and their services were terminated on 16-5-1979. From the licence granted to the Management under Ex. M-3 and also the mining lease deed Ex. M-4 it can be easily held that the Management had no mining operation in Mangarangampalayam. The first person mentioned in the Annexure to the issue has been examined as W.W. 1. He would say that Mangarangampalayam is only a hamlet of Veerachinalayam. But in cross-examination he has admitted that Mangarangampalayam lies between Coimbatore and Salem on the National Highways and also says that a name board was there indicating the place and India Cements also have mining lease in Mangarangampalayam. He reiterates the claim that when his services were terminated he was working only at Mangarangampalayam. With regard to the date of termination it is mentioned as 16-5-1979. But the only witness W.W. 1 who was examined by the Union on 7-4-1981 has clearly stated even in chief examination that their services were terminated one year and eight months ago in the month of Avani. The specific case put up in the claim statement and also the reference is 16-5-1979 which would mean probably 1st of Vaikasi, 1979. But the present case of W.W. 1 is that it was in the month of Avani which may corroborate the case of the Management. However, on his own admission and in the specific claim that the services of these workmen were terminated on 16-5-1979, there is no good deal of force in the submission of the Management that at any rate the first part of the reference made by the Government of India for adjudication.

cation to this Tribunal is vague and misleading. The second part of the reference made by the Government of India proceeds on the footing that the Management refused to employ these workmen at Palakhalapalayam and Varudhampatti Limestone Mines. Although the reference proceeds on the footing that the Management refused to employ these workmen in Palakhalapalayam and Varudhampatti Limestone Mines yet significantly nowhere in the claim statement is there any whisper that these workmen were refused to be employed by the Management at Palakhalapalayam and Varudhampatti Limestone Mines. It should also be noted that the responsible Union represented by no less than a leading member of the bar Thiru K. Chandru did not choose to file any reply or rejoinder statement to the stand of the Management that the reference is vague and misleading. W.W. 1, the only one of the 31 workmen who has been examined has admitted in cross-examination that he does not remember the date or the month in which their services were terminated by the Management, but would add that that complaint was in 1980. In 1962-II-L.L.J. Page 227 (Express Newspapers Ltd., vs. their workers and staff and others) the Supreme Court has pointed out that the jurisdiction of the Industrial Tribunal in dealing with industrial dispute referred to it under section 10 of the Industrial Disputes Act, 1947 is limited by Section 10(4) to the points specifically mentioned in the reference. It also points out that the Courts must attempt to construe the reference not too technically or in a pedantic manner, but fairly and reasonably. Even by the standard set up by the Supreme Court, if the reference made by the Government is scanned it must be held that the present reference is vague and misleading. In 1963-I-L.L.J. Page 507 (Ramamoorthy (W.P.A.R.) and others vs. Tirunelveli District National Plantation Workers' Union and others). His Lordship Veeraswami as he then was has pointed out that under Section 10(4) of the Industrial Disputes Act, 1947 when a reference is made for adjudication it shall confine its jurisdiction to the points of dispute referred to for adjudication. If the reference is made on an incorrect assumption, it is certainly not open to the Industrial Tribunal, while so holding to enlarge by its own choice to the scope of the reference and widen the issue for decision. In view of this decision also the stand of the Management has to be upheld. In the face of these materials as afforded in the cross-examination of W.W. 1 and in the light of the other clinching, circumstantial and documentary evidence, I am constrained to hold that the reference made by the Government of India is vague and misleading.

(3) Even granting that the reference made by the Government of India is not vague and misleading, I shall examine if on the merits the 31 workmen or any of them would be entitled to claim any relief as such. A perusal of the claim statement would leave one with the impression that because these 31 workmen joined the Petitioner-Union, namely Mines Mineral and Allied Industries National Workers Union, No. 30/D, Bhavanji Main Road, Sankari-637303, Tamil Nadu, the Management has terminated the services of these 31 workmen. The claim statement filed by the Union does not specifically indicate as to when exactly these 31 workmen joined the Petitioner-Union. But W.W. 1 has stated in cross-examination that these workmen joined the Petitioner-Union in 1979 although he does not remember the exact month in which they joined the Union. Incidentally, it may also be noted that although the Secretary of the Union has signed the claim statement, not one of the 31 workmen has subscribed his signature to the claim made therein. On a plain reading of the claim statement, the workmen were denied employment by the Management once in February, 1979 and again they were given employment from 1-4-1979 and subsequently they were denied employment from 16-5-1979. But from the documents placed, it can be held that these workmen had worked under the Management till 8-9-1979. Therefore, there is considerable doubt if the case put forward by the Union or the 31 workmen is true. If in fact, the action of the Management in terminating the services of the workmen was intended to strike terror in the minds of the workmen or the Union to which they have affiliated themselves and if in January, 1979 these workmen joined the Petitioner-Union and in February, 1979 their services were first terminated it is hard to believe the case of the Union that after such termination they were again offered employment from 1-4-1979 and only to be terminated by 16-5-1979. These factors would give lie circumstantial to the case put forward by the Union that because these 31 workmen joined the Petitioner-Union their services were terminated by the Management.

(4) At this juncture, it will be pertinent for me to set out the case of the Management with regard to these 31 workmen. Their case is that these 31 workmen were never directly

employed by the Management, but these workmen were employed through a Contractor or Maistry as a leader on piece-rate basis. It cannot be denied that the mines are situated in the interior villages of the Salem District. In paragraph (5) of the counter statement, the Management has also specifically stated that these workmen were engaged from 19-1-1979 by the Contractor Thiru R. Kumaravel and subsequently under Thiru K. P. Kandasamy who became the leader of that group. Thiru R. Kumaravel has been examined as M.W. 1 while Thiru K. P. Kandasamy has been examined by the Union as W.W. 1. Further case of the Management is that the services of these workmen were not terminated either from 22-2-1979 or from 16-5-1979 as the Union would have it. But there was some trouble in the first week of September, 1979 and therefore the workmen did not turn up for work from 8-9-1979. In the circumstances, it has to be seen whether by and large the case put up by the Management can be accepted. Ex. M-5 is the complaint sent by W.W. 1 and 34 others to the Management. In Ex. M-5 dated 17-7-1979 these 31 workmen have not whispered that the services were terminated by the Management either on 22-2-1979 or 16-5-1979. Ex. M-5 is dated 17-7-1979. Incidentally in Ex. M-5, all these workmen are mentioned as working at Mangarangampalayam which is not worked up by the Management. The Management has given a complaint against these workmen to the Police on 10-9-1979, copy of the complaint is Ex. M-6 Exs. M-16 and M-17 are the Annual Returns filed by the Management. They relate to earlier period, but this has been marked by the Union during cross-examination of M.W. 3. The Union has also marked during cross-examination Ex. M-18 which is a register of leave account in Form 'G'. That would indicate the various dates the workmen had actually worked from January, 1979 till August, 1979. The data furnished under Ex. M-18 showing the attendance of the workers would probabilise more the case of the Management rather the one put forward by the Union. M.W. 3 has explained that due to the nature of work and allocation of the mines, the operations are continued now and then with some breaks when warranted. That, explains the statistics as afforded by Ex. M-18. M.W. 1 has stated that W.W. 1 and 15 others had worked under him in Karuna Mines for some time at Veerachipalayam. Merely because M.W. 1 is not a registered contractor his evidence cannot be brushed aside altogether. He has stated that W.W. 1 and 15 others worked under him for some time in January, 1979. That supports the entries found in Ex. M-18. Regard being had to the nature of the work turned out by these workmen, it is more probable that they were engaged by the contractor rather than directly by the Management although the Management has maintained a record under Ex. M-18 to this effect. M.W. 2 also states that M.W. 1 had worked under the Management for two or three days in 'Thai' 1979. Learned counsel for the Union would point that even from Ex. M-18 it can be noted that these workmen did not turn up for work from 15-5-1979. M.W. 1 has already explained that the workmen would come as and when there is work and as and when the workmen found it convenient. Therefore, merely because from Ex. M-18, it can be seen that from 15-5-1979 till the end of June, 1979 the workmen did not work, it cannot be taken as circumstance to support the case of the Union that the services of these workmen were terminated from 16-5-1979. On the contrary, it can be seen from Ex. M-18 that in July and August, 1979 also these workmen had worked under the Management. These workmen had also issued the receipt for the payment made by the Management and the same has been marked as Ex. M-1 series and the voucher passed by W.W. 1 is separately marked as Ex. M-2 and is dated 8th September, 1979. Therefore there is room to hold that till 7-9-1979 these workmen had worked under the Management. The only explanation of the Union is that these vouchers relate to the payment of arrears of wages for the work done prior to 16-5-1979. On the materials placed, it is hard for acceptance. If in fact the payment covered by Ex. M-1 series and Ex. M-2 relate only to the arrears of wages as claimed by these 31 workmen for work done by them prior to 16-5-1979, certainly when the payment is received only in September, 1979 surely the workmen would have insisted that the receipt must specifically relate to arrears of wages. Normally by and large the arrears of wages are never withheld. The Management has given a serious complaint against the workmen—vide Ex. M-6. This fact is also supported by the complaint made by the Management to the Assistant Labour Commissioner (Central) Madras on 14-9-1979—vide Ex. M-8. It may be noted that in Ex. M-8 the Management has clearly stated that the workmen had worked

upto 7-9-1979 and have received the last wages upto 8-9-1979. From Ex. M-9 the Management had in fact issued notice to the temporary workers for continued absence from work. Ex. M-12 is also letter from the Management to the Director of Mines Safety, Oorgaum. In Ex. M-12 also the Management has pointed out to the fact that Thiru K. P. Kandasami W.W.1 and 30 others began to work in their mine from 19-1-1979 and they have also stated that the workmen had abandoned the work from 8-9-1979 even after due notice given to them. Exs. W-15, W-16 and W-17 are the letters sent by W.W.1 and other workmen and also the Union would go a long way to improbableise the case of termination of these workmen with effect from 16-5-1979 as specifically put forward by the Union. On an anxious and careful consideration of the entire evidence oral and documentary and the broad probabilities, I am not inclined to accept the case of the Union that the services of the 31 workmen were terminated by the Management with effect from 16-5-1979. It is more probable that these temporary workmen have abandoned their work from 8-9-1979 under the Management due to impending or probable Police action. Hence I must answer the issue in the negative and the workmen are not entitled to any relief.

(5) In the result, an Award is passed holding that the workmen are not entitled to any relief. In the circumstances, I direct the parties to bear their respective costs.

Dated, this 1st day of August, 1981.

AWARD

The Central Government as appropriate Government vide its order No. L-29011/12/80-D.H.I.B dated the 31st May, 1980 referred an Industrial Dispute in the following terms sub 10 of the I.D. Act to this Tribunal :

"Whether the following demands of the workers employed in the Lime Stone Mine of Shri Mohd. Usman s/o Shri Ladu Khan, Mine Owner, Haria Kheri Kheemuch, District Kota are justified? If so, to what relief the workmen are entitled ?

1. Upward revision of rate of daily wage of unskilled workers.
2. Enhancement of piece rate for Stone cutters.
3. Rationalisation and introduction of suitable pay scale for the clerical and other staff employed in the mine.
4. Provision of medical facilities.
5. Grant of two extra paid festival holidays.
6. Grant of 20 days casual leave in addition to leave admissible under the Mines Act ?"

2. On receipt of the reference it was ordered to be registered. In pursuance of the notice workmen side had appeared but the Management side had absented. The notices were ordered to be issued to the Management for five times but none appeared on behalf of the Management and it was thereafter that I was constrained to order *ex parte* against the Management and *ex parte* evidence was ordered to be recorded on the pleadings of the petitioners/workmen.

3. I have gone through the evidence produced by the workmen side and have gone through the pleadings and after giving my considered thought to the matter before me I have come to the following findings upon this reference.

4. From the perusal of statement of claim filed by the workmen I find that it is contended therein that Rashtriya Mazdoor Sangh, District Kota is a registered trade union of Lime Stone workers and the respondent was owner of a Lime Stone; that the respondent had not been paying proper wages as other Lime Stone owners are paying therefore the matter was taken up and the present reference has been made by the appropriate Government.

5. In support of its evidence the workmen side has produced only the affidavit of one Shri Ram Gopal Gupta s/o Shri Jamn Lal who has described himself in para No. 1 of the affidavit to be the Office Secretary and elected Treasurer of Rashtriya Mazdoor Sangh. The only other thing stated by this witness in his affidavit is that the respondent have not raised wages since October, 1979 of the workers in their Lime Stone Mines while most of the other Lime Stone Mine owners have increased the wages w.e.f. 1-10-79 and that similar work is carried out in the Lime Stone Mines of the respondent and hence it is prayed that the revised wages be paid w.e.f. 1-10-79.

6. From the perusal of above statement of claim and the evidence it would be found that it does not even remotely touch the points of reference which have been referred as Industrial Dispute by the appropriate Government to this Tribunal and in view thereof it cannot be said that the workmen side have led appropriate evidence to entitle it to any relief whatsoever.

7. Now that the Management side had absented the burden of proving the entire claim had fallen upon the workmen side. Even otherwise from the order of reference it would be found that the workmen had to establish the justification of their demands incorporated in the said order of reference. The workmen side has led practically no evidence worth the name to discharge the said burden. They have not cared to examine even one such employer who was paying higher wages than this management/respondent, even though it is alleged that most of the other employers were paying higher wages. The workmen side has further failed to produce any evidence to suggest even remotely that the present wages were insufficient or required revision. Likewise they have not brought any evidence on record to make out a case for upward revision of rates of daily wages or enhancement of piece rates. Similarly in the absence of any evidence on the point it cannot be said that any rationalisation or introduction of any suitable pay scale for clerical or other staff is called for or can be done. Likewise there is absolutely no evidence on the question of provision of medical facilities or grant of two extra paid festival holidays or 20 days casual leave in addition to the leave admissible to these workmen under the Mines Act. From whichever angle I may consider the matter before me I have come to the conclusion that the workmen have miserably failed to establish their claim in this reference.

8. It may incidently be mentioned here that the appropriate Government had vide its order No. S. 32019(VI)79-WC(MW) dated the 12th September, 1980 revised the minimum rate of wages in respect of categories of employees employed in Stone Mines which includes Lime Stone Mines. From the perusal of the said order it would be found that the appropriate Government has fixed minimum rates of wages for unskilled, semi-skilled and skilled and clerical staff working in these mines and explanation to this notification shows that this minimum rate of wages is also inclusive of basic rates, cost of leaving allowance, cash value of concessional supply and wages for the weekly rest and are also applicable to employees by contractors, which term would include the lease holder of the present mine also. This order is effective from 1-10-80 and therefore it is too premature thereafter to revise the rate of wages. It may also be mentioned here that for the same reasons no rationalisation or introduction of suitable pay scale at this stage is called for. Similarly there are no grounds for further revision of medical facilities or grant of two extra paid festival holidays or 20 days casual leave in addition to leave admissible to these people under the Mines Act. The very fact that the appropriate Government has revised minimum rates of wages in respect of employees employed in Stone Mines which term would include Lime Stone Mines, would go to suggest that this industry is still in its very infancy and would

not admit of any revision or upward revision of wages or any rationalisation or introduction of regular pay scale or provision of medical facilities or grant of two extra paid festival holidays or 20 days casual leave. For this reason also the workmen side is not entitled to any relief in this reference whatsoever.

9. The matter may be considered from yet another angle. The workmen side have failed to produce any figures showing their output of production or to bring out the incidence of financial burden of expenditure which would be involved if any practice of further medical facility or grant of two additional festival holidays or additional 20 days casual leave is introduced in this industry. The time is still not ripe for granting of any of these reliefs. Further more now that minimum wages have been revised by the appropriate Government in respect of workers working in Stone Mines Industry including the Lime Stone Mines it is natural that further revision would be made in accordance with the provisions of Minimum Wages Act as and when such a necessity would arise.

10. In view of my discussions above, I hold that none of the demands of the workmen in this reference is justified it is awarded that the workmen are not entitled to any relief whatsoever in this reference. However parties are left to bear their own costs.

Further Ordered :

That requisite number of copies of this award may be sent to the appropriate Government for necessary action at their end.

MAHESH CHANDRA, Presiding Officer.

AWARD

The Central Government as appropriate Government vide its order No. L-29011/14/80-D.III.B dated the 31st May, 1980 referred an Industrial Dispute in the following terms u/s 10 of the ID Act to this Tribunal :—

'Whether the following demands of the workers employed in the Lime Stone Mine of Shri Gangaram Kalooram Jatwa, Mine Owner, P.O. Satalkheri via Ramganjmandi, Distt. Kota are justified? If so, to what relief the workmen are entitled?

1. Upward revision of rate of daily wage of unskilled workers.
2. Enhancement of piece rate for Stone Cutters.
3. Rationalisation and introduction of suitable pay scale for the clerical and other staff employed in the mine.

4. Provision of medical facilities.

5. Grant of two extra paid festival holidays.

6. Grant of 20 days casual leave in addition to leave admissible under the Mines Act.'

2. On receipt of the reference it was ordered to be registered. In pursuance of the notice workmen side had appeared but the Management side had absented. The notices were ordered to be issued to the Management for five times but none appeared on behalf of the Management and it was thereafter that I was constrained to order ex-parte against the Management, and ex-parte evidence was ordered to be recorded on the pleadings of the petitioners/workmen.

3. I have gone through the evidence produced by the workmen side and have gone through the pleadings and after giving my considered thought to the matter before me I have come to the following findings upon this reference.

4. From the perusal of statement of claim filed by the workmen I find that it is contended therein that Rashtriya Mazdoor Sangh, District Kota is a registered trade union of Lime Stone Workers and the respondent was owner of a Lime Stone; that the respondent had not been paying proper wages as other Lime Stone owners are paying therefore the matter was taken up and the present reference has been made by the appropriate Government.

5. 6. From the perusal of above statement of claim and the evidence it would be found that it does not even remotely touch the points of reference which have been referred as Industrial Dispute by the appropriate Government to this Tribunal and in view thereof it cannot be said that the workmen side have led appropriate evidence to entitle it to any relief whatsoever.

7. Now that the Management side had absented, the burden of proving the entire claim had fallen upon the workmen side. Even otherwise from the order of reference it would be found that the workmen had to establish the justification of their demands incorporated in the said order of reference. The workmen side has led practically no evidence worth the name to discharge the said burden. They have not cared to examine even one such employer who was paying higher wages than this management/respondent, even though it is alleged that most of the other employers were paying higher wages. The workmen side has further failed to produce any evidence to suggest even remotely that the present wages were insufficient or required revision. Likewise they have not brought any evidence on regard to make out a case for upward revision of rates of daily wages or enhancement of piece rates. Similarly in the absence of any evidence on the point it cannot be said that any rationalisation or introduction of any suitable pay scale for clerical or other staff is called for or can be done. Likewise there is absolutely no evidence on the question of provision of medical facilities or grant of two extra paid festival holidays or 20 days casual leave in addition to the leave admissible to these workmen under the Mines Act. From whichever angle I may consider the matter before me I have come to the conclusion that the workmen have miserably failed to establish their claim in this reference.

6. It may incidently be mentioned here that the appropriate Government had vide its order No. S-32019(VI)/79-WC (MW) dated the 12th September, 1980 revised the minimum rates of wages in respect of categories of employees employed in Stone Mines which includes Lime Stone Mines. From the perusal of the said order it would be found that the appropriate Government has fixed minimum rates of wages

for unskilled, semi-skilled and skilled and clerical staff working in these mines and explanation to this notification shows that this minimum rate of wages is also inclusive of basic rates, cost of leaving allowance, cash value of concessional supply and wages for the weekly rest and are also applicable to employees employed by contractors, which term would include the leave holder of the present type also. This order is effective from 1-10-80 and therefore it is too premature thereafter to revise the rate of wages. It may also be mentioned here that for the same reasons no rationalisation or introduction of suitable pay scale at this stage is called for. Similarly there are no grounds for further revision for medical facilities or grant of two extra paid festival holidays or 20 days casual leave in addition to leave admissible to these people under the Mines Act. The very fact that the appropriate Government has revised minimum rates of wages in respect of employees employed in Stone mines which term would include lime stone mines, would go to suggest that this industry is still in its very infancy and would not admit of any further revision or upward revision of wages or any rationalisation or introduction of regular pay scale or provision of medical facilities or grant of two extra paid festival holidays or 20 days casual leave. For this reason also the workmen side is not entitled to any relief in this reference whatsoever.

9. The matter may be considered from yet another angle. The workmen side have failed to produce any figures showing their put of production or to bring out the incidence of financial burden of expenditure which would be involved if any practice of further medical facility or grant of two additional festival holidays or additional 20 days casual leave is introduced in this industry. The time is still not ripe for granting of any of these reliefs. Furthermore now that minimum wages have been revised by the appropriate Government in respect of workers working in Stone Mines Industry including the Lime Stone Mines it is natural that further revision would be made in accordance with the provisions of Minimum Wages Act as and when such a necessity would arise.

10. In view of my discussion above, I hold that none of the demands of the workmen in this reference is justified and it is awarded that the workmen are not entitled to any relief whatsoever in this reference. However parties are left to bear their own costs.

Further Ordered :

That requisite number of copies of this award may be sent to the appropriate Government for necessary action at their end.

S.O. 2351.—In pursuance of section 17 of the Industrial Disputes Act, 1947 (14 of 1947), the Central Government hereby publishes the following award of the Central Government Industrial Tribunal-cum-Labour Court, New Delhi in the industrial dispute between the employers in relation to the management of M/s. West Suket Co-operative Labour Contractor Sahakari Samiti and their Workmen, which was received by the Central Government on the 12th August, 1981.

BEFORE SHRI MAHESH CHANDRA, PRESIDING
OFFICER, CENTRAL GOVT. INDUSTRIAL TRIBUNAL-
CUM-LABOUR COURT NEW DELHI

I.D. No. 42 of 1980

In re:

The Office Secretary,
Rashtriya Mazdoor Sangh, Ramganjmandi,
Rajasthan

Versus

M/s. West Suket Cooperative Labour
Contractors Sahakari Samiti Ltd.,
P.O. Suket, District Kota,

..... Petitioner

..... Respondent

AWARD

The Central Govt. as appropriate Govt. vide its order No. L-29011(17/80-D.III(B) dated the 31st May, 1980 referred an Industrial Dispute in the following terms n/s 10 of the ID Act to this Tribunal:

Whether the following demands of the workers employed in the Lime Stone Mine of M/s. West Suket Cooperative Labour Contractors Sahakari Samiti Ltd., P.O. Suket, District Kota are justified? If so, to what relief the workmen are entitled?

1. Upward revision of rate of daily wage of unskilled workers.
2. Enhancement of piece rate for Stone cutters.
3. Rationalisation and introduction of suitable pay scale for the clerical and other staff employed in the mine.
4. Provision of medical facilities.
5. Grant of two extra paid festival holidays.
6. Grant of 20 days casual leave in addition to leave admissible under the Mines Act.

2. On receipt of the reference it was ordered to be registered. In pursuance of the notice workmen side had appeared but the Management side had absented. The notices were ordered to be issued to the Management for five times but none appeared on behalf of the Management and it was thereafter that I was constrained to order ex-parte against the Management and ex-parte evidence was ordered to be recorded on the pleadings of the petitioners/workmen.

3. I have gone through the evidence produced by the workmen side and have gone through the pleadings and after giving my considered thought to the matter before me I have come to the following findings upon this reference.

4. From the perusal of statement of claim filed by the workmen I find that it is contended therein that Rashtriya Mazdoor Sangh, District Kota is a registered trade union of Lime Stone Workers and the respondent was owner of a Lime Stone; that the respondent had not been paying proper wages as other Lime Stone owners are paying therefore the matter was taken up and the present reference has been made by the appropriate Govt.

5. In support of its evidence the workmen side has produced only the affidavit of one Shri Ram Gopal Gupta s/o Shri Jamna Lal who has described himself in para no. 1 of the affidavit to be the Office Secretary and elected Treasurer of Rashtriya Mazdoor Sangh. The only other thing stated by this witness in his affidavit is that the respondent have not raised wages since October, 1979 of the workers in their Lime Stone Mines while most of the other Lime Stone Mine owners have increased the wages w.e.f. 1-10-79 and that similar work is carried out in the Lime Stone Mines of the respondent and hence it is prayed that the revised wages be paid w.e.f. 1-10-79.

6. From the perusal of above statement of claim and the evidence it would be found that it does not even remotely touch the points of reference which have been referred as Industrial Dispute by the appropriate Govt. to this Tribunal and in view thereof it cannot be said that the workmen side have led appropriate evidence to entitle it to any relief whatsoever.

7. Now that the Management side had absented, the burden of proving the entire claim had fallen upon the workmen side. Even otherwise from the order of reference it would be found that the workmen had to establish the justification of their demands incorporated in the said order of reference. The workmen side has led practically no evidence worth the name to discharge the said burden. They have not cared to examine even one such employer who was paying higher wages than this management/respondent, even though it is alleged that most of the other employers were paying higher wages. The workmen side has further failed to produce any evidence to suggest even remotely that the present wages were insufficient or required

revision. Likewise they have not brought any evidence on record to make out a case for upward revision of rates of daily wages or enhancement of piece rates. Similarly in the absence of any evidence on the point it cannot be said that any rationalisation or introduction of any suitable pay scale for clerical or other staff is called for or can be done. Likewise there is absolutely no evidence on the question of provision of medical facilities or grant of two extra paid festival holidays or 20 days casual leave in addition to the leave admissible to these workmen under the Mines Act. From whichever angle I may consider the matter before me I have come to the conclusion that the workmen have miserably failed to establish their claim in this reference.

8. It may incidentally be mentioned here that the appropriate Govt. had vide its order No. S-32019(VI)/79-WC(MW) dated 12th September, 1980 revised the minimum rates of wages in respect of categories of employees employed in Stone Mines which includes Lime Stone Mines. From the perusal of the said order it would be found that the appropriate Govt. has fixed minimum rates of wages for unskilled, semi-skilled and skilled and clerical staff working in these mines and explanation to this notification shows that this minimum rate of wages is also inclusive of basic rates, cost of living allowance, cash value of concessional supply and wages for the weekly rest and are also applicable to employees employed by contractors, which term would include the lease holder of the present type also. This order is effective from 1-10-80 and therefore it is too premature thereafter to revise the rate of wages. It may also be mentioned here that for the same reasons no rationalisation or introduction of suitable pay scale at this stage is called for. Similarly there are no grounds for further revision of medical facilities or grant of two extra paid festival holidays or 20 days casual leave in addition to leave admissible to these people under the Mines Act. The very fact that the appropriate Government has revised minimum rates of wages in respect of employees employed in Stone mines which term would include lime stone mines, would go to suggest that this industry is still in its very infancy and would not admit of any further revision or upward revision of wages or any rationalisation or introduction of regular pay scale or provision of medical facilities or grant of two extra paid festival holidays or 20 days casual leave. For this reason also the workmen side is not entitled to any relief in this reference whatsoever.

9. The matter may be considered from yet another angle. The workmen side have failed to produce any figures showing their output of production or to bring out the incidence of financial burden of expenditure which would be involved if any practice of further medical facility or grant of two additional festival holidays or additional 20 days casual leave is introduced in this industry. The time is still not ripe for granting of any of these reliefs. Furthermore now that minimum wages have been revised by the appropriate Government in respect of workers working in Stone Mines Industry including the Lime Stone Mines it is natural that further revision would be made in accordance with the provisions of Minimum Wages Act as and when such a necessity would arise.

6 In view of my discussions above, I hold that none of the demands of the workmen in this reference is justified and it is awarded that the workmen are not entitled to any relief whatsoever in this reference. However parties are left to bear their own costs.

New Delhi, the 19th August, 1981

S.O. 2354.—In pursuance of section 17 of the Industrial Disputes Act, 1947 (14 of 1947), the Central Government hereby publishes the following award of the Central Government Industrial Tribunal No. 1, Dhanbad, in the industrial dispute between the employers in relation to the management of Pootkee Colliery of Messrs Bharat Coking Coal Limited, Post Office Kusunda, District Dhanbad and their workmen which was received by the Central Government on the 17th August, 1981.

In the matter of an industrial dispute under S. 10(1)(d) of the I.D. Act, 1947.

PARTIES :

Employers in relation to the management of Pootkee Colliery of Messrs Bharat Coking Coal Limited, Post office Kusunda, District Dhanbad and their workmen.

APPEARANCES :

On behalf of the employers.—Shri B. Joshi, Advocate.
On behalf of the workmen.—None.

INDUSTRY: Coal

1st August, 1981.

AWARD

This is a reference under S. 10(1)(d) of the I.D. Act, 1947. The Central Government by its order No. L-20012/128/79-D.III(A) dated 4th June, 1980 has referred this dispute to this Tribunal for adjudication on the following terms :

SCHEDULE

“Whether the demand of the workmen of Pootkee colliery of Messrs Bharat Coking Coal Limited, Post office Kusunda, District Dhanbad that Sarvasri M. Banerjee, Samiron Guha, Rajuhan Ahmed, P. K. Sinha, P. C. Chatterjee, Abhai Narain Ray, Shyamnand Jha and S. K. Ghose, should be promoted from clerical grade II to Grade I from the date their juniors have been promoted is justified? If so, to what relief are the said workmen entitled?”

2. The above named concerned workmen were denied promotion from clerical grade II to clerical grade I and this led to an industrial dispute. I need not elaborately go into the case of the workmen and the employer for the very simple reason that on behalf of the employer a petition has been filed for passing a ‘No dispute’ award. The management has admitted that the Departmental Promotion Committee which considered the promotion matter made a mistake in considering seniority colliery-wise instead of considering seniority Area-wise. This was the main reason why the concerned workmen could not be recommended for promotion by Departmental Promotion Committee. The petition further says that not only the case of the concerned workmen but a large number of others who suffered on account of the aforesaid mistake are going to be rectified by constituting a fresh Departmental Promotion Committee to go into the question. It has been conceded in this petition that the recommendation of the earlier Departmental Promotion Committee and orders passed thereon have been clearly rescinded by the management.

3. It is accordingly clear that the case of the concerned

workmen for promotion from Grade II to Grade I is now open to be considered by a fresh Departmental Promotion Committee. This leaves no scope for a dispute in this reference and the point raised in this reference need not be answered. In fact the prayer of the management to pass a 'No dispute' award is acceptable. The reference is accordingly disposed of.

S.O. 2355.—In pursuance of section 17 of the Industrial Disputes Act, 1947 (14 of 1947), the Central Government hereby publishes the following award of the Central Government Industrial Tribunal No. 1, Dhanbad, in the industrial dispute between the employers in relation to the management of Regional Stores, Sinidih, Govindpur Area (No. III) of Messrs Bharat Coking Coal Limited, Post Office Sonardih, District Dhanbad and their workmen, which was received by the Central Government on the 11th August, 1981.

For the Employers.—Shri B. Joshi, Advocate.

For the Workmen.—Shri S. Bose, Secretary, Rashtriya Colliery Mazdoor Sangh

STATE: Bihar

INDUSTRY: Coal

Dhanbad, dated the 1st August, 1981

AWARD

By Order No. L-20012(83)/80-D.III(A) dated the 10th October, 1980, the Central Government being of opinion that an industrial dispute existed between the employers in relation to the management of Regional Stores, Sinidih Govindpur Area (No. III) of Messrs Bharat Coking Coal Limited, Post Office Sonardih, District Dhanbad and their workmen in respect of the matter specified in the schedule attached to the order referred the same for adjudication to this Tribunal. The schedule to the order reads thus :

"Whether the demand of the workmen of Regional Stores, Sinidih of Govindpur Area (No. III) of Messrs Bharat Coking Coal Limited, Post Office Sonardih, District Dhanbad that Shri P. Jha, Store Keeper should be placed in Grade-I (Clerical) and paid wages accordingly from June, 1973 is justified? If so, to what relief is the said workman entitled?"

2. After notice to the parties the management only has filed its written statement. On 6-3-81 when in spite of notice the union did not file its written statement the Tribunal ordered that the union had no written statement to file and posted the case for hearing to 18-3-81. Ultimately the hearing of the case was taken up on 30-6-81 after submission of Sri S. Bose for the union to contest the case without filing written statement was accepted. On that day the union examined one witness as WW-1 and got some documents marked as exhibits (Exts. W-1 to W-6). Parties were thereafter heard on their respective cases.

616 GI/81—10

3. The reference in this case relates to the demand of the workman for placing Sri P. Jha, Store Keeper in Gr. I (Clerical) and for payment of wages accordingly from June, 1973. The case of the management as appears from its written statement is as follows. The concerned workman was an office clerk on 31-1-73 at North Akashkinaree Colliery the management of which was taken over by the Central Government from that day. Since then the concerned workman was put in Clerical Gr. II in accordance with the recommendation of the Coal Wage Board. The management thereafter transferred the concerned workman to Regional Stores in June, 1973 which was opened in the area after nationalisation of the Coking Coal Mines. At that place the concerned workman was posted as Asstt. Store Keeper at the Regional Stores of the Area situated at Sinidih. Asstt. Store Keepers are entitled to Clerical Gr. II and so the concerned workman after his posting in Regional Stores was allowed to draw wages admissible to Clerical Gr. II Under the recommendation of the Coal Wage Board Store Keepers can be placed both in Clerical Grade I and Clerical Gr. II. Asstt. Store Keepers according to recommendations of the Coal Wage Board are in Clerical Gr. II. The concerned workman continued to work as Asstt. Store Keeper in Gr. II from June 1973 till he was promoted to the post of Store Keeper Gr. I in December 1978 after his case was recommended by Departmental Promotion Committee. Therefore the union's demand that the concerned workman should have been placed in Gr. I from June 1973 is not justified. Promotions from Gr. II to Gr. I are made on the basis of merit and experience depending upon the availability of number of promotional posts. In these circumstances the concerned workman is not entitled to any relief.

4. As has been stated earlier the union has not filed its written statement and Mr. S. Bose appearing for the union contested the case without filing a written statement by examining the concerned workman as WW-1 and by getting as many as six documents marked as exhibits through WW-1. The concerned workman admits in his evidence that he was posted as Sinidih Regional Store in June 1973. This store according to the evidence was in respect of four sub-areas, namely, Dharnaband, Gobindpur, Phulartand and Mohuda. At that time according to the workman there were two sections in the General Stores—one for spares and other for general stores and he was incharge of General Store Section and was not assisting any other Store Keeper and was in independent charge of the section. In spite of this the workman says that he was in Gr. II. The workman further asserts that at the time he was in independent charge of the section there was one Asstt. Store Keeper under him and so the management was not justified in placing him in Gr. II. He also deposes that the work he was doing was the work of a Store Keeper Gr. I though being posted as Asstt. Store Keeper in Gr. II he was signing the attendance register as such. In the evidence the workman says that although he himself being incharge of one section had been placed in Gr. II another man incharge of spare section as Store Keeper was in Gr. I and that the Store Keeper incharge of spare section was not supervising his (workman's) work. In cross-examination the witness admits that he was initially appointed in Akashkinari Colliery on 16-8-72 and at that time his basic pay was Rs. 205 per month which was the basic pay of a Clerk in Gr. II. He further admits that after nationalisation he continued in the same category and that he was transferred to Central Store in June 1973 as Asstt. Store Keeper in Gr. II. It is also admitted by him that in the Central Store there is a section known as Issue Section which is divided into two sub-sections, namely, spares and general stores and that one Anil Misra was incharge of Issue Section as well as spare sub-section. It is thus clear from the evidence that general store is not a section but is a sub-section under Issue Section and that Anil Misra was incharge of Issue Section. It is also clear from the evidence of the workman that after his transfer to the Store he has never been placed incharge of an independent section and that a Store Keeper Gr. I always remains incharge of a Section. In these circumstances from the evidence of the concerned workman it is manifest that after his transfer to Store in June 1973 he has been at times placed incharge of different sub-sections and never been incharge of a Section. Central Wage Board recommendations show that a Store Keeper may be both in Gr. I and also in Gr. II. It is not disputed that in the

year 1978 the concerned workman was promoted as Store Keeper Gr. I. Between 1973 to 1978 it is not clear from the evidence of the concerned workman that he was performing the duties of a Store Keeper Gr. I. The documents relied upon by the union in this connection also do not improve the case of the workman. Exts. W-1 to W-4 are only correspondence under which the concerned workman claims to be put in Gr. I. Ext. W-5 is the order showing that the concerned workman was promoted to Gr. I with effect from 29-6-78. Thus there being nothing to show that before the concerned workman was actually promoted to Gr. I he was discharging the duties attached to the job of a Store Keeper Gr. I the claim of the union to place him in Gr. I since 1973 cannot therefore be justified. The promotion of the concerned workman to the post of Store Keeper Gr. I since June 1978 is however not affected. The reference is answered accordingly. There will be no order for costs.

AWARD

By Order No. L-20012(85)/80-D.III(A) dated the 14th October, 1980, the Central Government being of opinion that an industrial dispute existed between the employers in relation to the management of Regional Stores, Sinidih of Govindpur Area (No. III) of Messrs Bharat Coking Coal Limited, Post Office Sonardih, District Dhanbad and their workmen in respect of the matter specified in the schedule attached to the order referred the same for adjudication to this Tribunal. The scheduled attached to the order reads thus:

"Whether the demand of the workmen of Regional Stores, Sinidih of Govindpur Area (No. III) of Messrs Bharat Coking Coal Limited, Post Office Sonardih, District Dhanbad that Shri Bijay Bahadur Singh, Store Keeper should be placed in Grade-1 (Clerical) and paid wages accordingly, from January, 1973 is justified? If so, to what relief is the said workman entitled?"

2. After notice to the parties the management has failed its written statement. In spite of repeated chances being given to the union it has not filed written statement at all. With the consent of the parties the case was heard and at

the time of hearing management did not choose to examine any witness whereas union examined the concerned workman and proved as many as three documents marked Exts. W-1 to W-3.

3. The case of the management as made out in its written statement may be briefly stated thus. The concerned workman was an Attendance Clerk on 17-10-1971 at South Govindpur Colliery whose management was taken over by the Central Government with effect from 17-10-1971. After take over the workman was placed in Clerical Gr. II, according to recommendations of the Central Wage Board. While he was so working he was transferred to the Regional Store and was posted as Asstt. Store Keeper there at Sinidih in the month of December, 1972. Asstt. Store Keepers belong to Clerical Gr. II under the recommendations of the Central Wage Board. So after his transfer the concerned workman was allowed to draw wages admissible to Clerical Gr. II. The Central Wage Board recommendation also provide that a Store Keeper may be both in Gr. I or in Gr. II. According to the same recommendations as Asstt. Store Keeper is always in Gr. II. That being so the management was fully justified in placing the concerned workman in Clerical Gr. II after he was transferred to Regional Store and was posted there as Asstt. Store Keeper. The workman however was promoted to Gr. I in December, 1978 as recommended by Departmental Promotion Committee. Such being the position the union's demand that the concerned workmen should be placed in Gr. I from 1-1-73 is without any basis.

4. It may be stated that the union has not filed any written statement but has examined the concerned workman only as WW-1. He admits that in December 1971 he was transferred as Asstt. Store Keeper to Sinidih Regional Store and that he was promoted in December, 1978. In his deposition he never claims that after his transfer to Regional Store he ever worked as a General Store Keeper Gr. I. It is also not disputed that under the recommendations of the Central Wage Board a Store Keeper may be both in Gr. I and in Gr. II. Therefore even conceding for the sake of argument that sometime after his transfer the concerned workmen was doing the work of a Store Keeper that would not entitle him to be placed in Gr. I because while working as a Store Keeper he may still be in Gr. II. It is the positive case of the management that promotion from Gr. II to Gr. I is always made by recommendations of the Departmental Promotion Committee. Law is well settled that a promotion is not a right for a workman. It depends upon his merit, as well as seniority. It is not the case of the workmen that even though he was eligible for promotion he was not considered. The documents relied upon by the union marked Exts W-1 to W-3 do not improve the case for the workman. They are mere recommendations and as such cannot clothe the workman with any right to be placed in Gr. I. Such being the position I do not see any merit in the demand of the union and hold that the said demand for placement of the concerned workman in Gr. I since January 1973 is not justified. The placement of the workman in Gr. I since December 1978 will however, stand. The reference is answered accordingly. There will be no order for costs.

2. After notice to the parties only the management has filed its written statement. In spite of repeated notice the union has not filed any written statement at all but still then Mr. S. Bose for the union submitted that he would contest the case of the management for the union without filing any written statement. Accordingly the case was heard on 24-7-81. None of the parties adduced any oral evidence. On behalf of the management two documents have been filed, namely, Exts. W-1 and M-2.

3. This case involves the claim of as many as seventeen workmen who have been named in the order of reference. The claim of the union is that the workmen named in the order of reference be upgraded from Clerical Gr. II to Gr. I. This shows that the seventeen workmen named in the order of reference were in Clerical Gr. II at the time the dispute arose. Management in its written statement admits that upgradation/promotion from Gr. II to Gr. I according to norm followed by the management is made on the basis of areawise seniority subject to satisfactory performance. This stand of the management is borne out from the circular Ext. M-1 which has been marked on admission by the parties. It is also admitted by the management in its written statement that there was upgradation/promotion of some clerks from Gr. II to Gr. I in September 1977 in pursuance to the recommendation of the Departmental Promotion Committee. At the time of making this upgradation/promotion areawise seniority was not however considered and recommendations were made by the Departmental Promotion Committee on the basis of colliery-wise seniority which was accepted and given effect to by the management. Ext. M-2 a document filed by the management and marked after formal proof was waived by the union shows that in the area in question there are as many as six collieries. Therefore according to the circular Ext. M-1 which prescribes the norm to be followed for upgradation/promotion of clerks from G. II to Gr. I seniority of clerks in the entire area consisting of six collieries should have been considered. But admittedly as seen from the written statement of the management and as conceded by Mr. R. Joshi for the management this was not done and

By Order No. L-20012/159/80-D.III(A) dated the 8th/9th December, 1980, the Central Government being of opinion that an industrial dispute existed between the employers in relation to the management of Bhagaband Colliery of Messrs Bharat Coking Coal Limited. At and Post Office Bhagaband, District Dhanbad and their workmen in respect of the matter specified in the schedule attached to the order referred the same for adjudication to this Tribunal. The schedule attached to the order reads thus:

"Whether the demand of the workmen of Bhagaband Colliery of Messrs Bharat Coking Coal Limited, at and Post Office Bhagaband, Distt. Dhanbad for upgradation of the workmen detailed in the Annexure below from clerical grade-II to clerical Grade-I is justified? If so, to what relief are the said workmen entitled and from which date?"

Departmental Promotion Committee recommended cases for upgradation/promotions on the basis of seniority in individual collieries. Such being the position the union's case that the case of the concerned workmen was over-looked by the Departmental Promotion Committee on account of following a wrong procedure contrary to the procedure laid down in Ext. M-1 has to be accepted. Mr. Bose only says that in view of the admitted position that the management has not followed the procedure laid down in Ext. M-1 for upgradation/promotions of clerks from Gr. II to Gr. I in September 1977 it should be asked to consider the case of the concerned workmen in accordance with the procedure laid down in Ext. M-1 afresh on the basis of the position that was existing immediately before the Departmental Promotion Committee made its recommendations in September, 1977 and to promote/upgrade those clerks in Gr. II to I according to areawise seniority subject to their satisfactory performance. This contention of Mr. Bose is fully justified. I, therefore, hold that the cases of the concerned workmen for upgradation/promotion from Gr. II to Gr. I are to be considered by the management afresh on the basis of the position that existed just before the Departmental Promotion Committee of the management considered some cases of upgradation/promotion in September 1977 as admitted in the management's written statement according to the procedure laid down in Ext. M-1 and that on such consideration those of the concerned workmen who would fulfil the norm prescribed under Ext. M-1 (management's circular No. BCCL/PA-II/77/31000-80 dated 20th June, 1977) will be entitled to upgradation/promotion from Gr. II to Gr. I will effect from the date they will be found fit. The reference is answered accordingly. There will be no order for costs. The departmental promotion committee of the management will consider the cases of the concerned workmen within three months from the date when the award came into force.
